

Rate My Lab

Jordan Martinez, Jessica Le, Brian Dobbs,
Jonathan Smiley

Purpose of Software

Rate My Lab is a type of social platform designed to assist GSU students in choosing a lab for their respective class and for professors to receive feedback on lab sections.

Technical Platform

HTML

- structures the front-end of Rate My Lab

CSS

- gives the structure visual coherence and contrast, as well as aesthetic appeal

PHP

- collects the students data
- helps the professor read anonymous surveys from the students
